

ENVIRONMENTAL HAZARD PREVENTION

Safety begins in your facilities.

Protect your employees, boost morale, and ensure regulatory compliance by partnering with SMC for Environmental Hazard Prevention. Our comprehensive suite of products, services, and training is designed to create a safer, healthier work environment.

What sets us apart:

SMC goes beyond basic compliance by identifying and mitigating hazards before incidents occur. We offer a wide range of assessments and support to help you stay ahead of the safety curve.

We're comprehensive:

SMC is an end-to-end supplier, ensuring we have everything you need to build a culture of safety.

- Safety Signage: Clear, compliant signage that effectively communicates hazards and safety procedures.
- Ergonomics: Assessments and recommendations to optimize workstations and prevent musculoskeletal disorders.
- Hearing Conservation: Noise monitoring, hearing protection programs, PPE, and employee education.
- CPR/First Aid Training: Empower your team to respond effectively in emergencies.

BENEFITS

- Reduced workplace accidents and injuries
- Improved employee morale and well-being
- Lower workers' compensation costs
- Enhanced regulatory compliance
- Increased productivity and efficiency

CPR/First Aid Training

- SMC offers Adult-Only or Adult AND Infant classes
- Hands-on skill practice
- Interactive learning environment
- Passing the course grants a valid 2-year certification to perform CPR/AED/First Aid
