

TRIAL LIGHTING PROGRAM

Lighting solutions
for your business

6 LIGHTING PRODUCTS RISK-FREE for 90 DAYS

How Does it Work?

Take advantage of SMC's Trial Lighting Program. Order up to 6 lighting products from SMC's brand partners, and include "Trial Lighting Program" on your order.

Products will be invoiced at shipment with 90-day terms.

Install the products in your space to ensure the products meet your needs. ***SMC does not cover installation costs or labor.**

If for any reason you are not satisfied, return the product within 90 days in the original packaging and saleable condition for a credit.

How To Get Started!

Contact your local SMC representative to take advantage of the Trial Lighting Program or contact SMC support. Call SMC at (833) 751-0048 or contact your local branch to place your order today!

Need Product Help?

SMC Technical Specialist are available to help get you started with an LED Lighting Assessment. Ask for more details!

GEORGIA TECH | CASE STUDY

CHALLENGE: The HID Lighting at Georgia Tech was outdated and there were no occupancy or daylight controls. The school recognized it was over spending on energy and maintenance. In fact, at the time of the retrofit it's estimated that more than 25% of the fixtures were not functioning at all. Students, faculty and staff began complaining about the lighting. Changes needed to be made.

SOLUTION: Leadership at Georgia Tech worked with Hubbell Lighting products to develop a solution that would save money in the short-term AND stand the test of time.

We've found a solution that is helping us reach our sustainability goals, save money, improve the aesthetics of our environment and save on maintenance.

- Georgia Tech

ENERGY SAVINGS: The new lighting solution has afforded Georgia Tech the opportunity to reduce energy costs by 48%. This represents an annual savings of close to \$32,000. Before the installation the university was using close to 88,000 kWh. Today it is using an average of 40,000 kWh. Additionally, Georgia Tech has seen a reduction in the number of complaints and its maintenance team has been freed up to focus on other areas of need.
