Overview:

This course (PRC203-EL) introduces the core components of a PlantPAx® 5.0 distributed control system, including HMI, alarms, and security required to operate a PlantPAx system. In this course, you will learn PlantPAx concepts and terminology and will be shown how to:

- Navigate in a PlantPAx 5.0 HMI system
- Interpret process objects and faceplates in a PlantPAx 5.0 application
- Operate within the security of a PlantPAx 5.0 system
- Interpret and respond to alarms in a PlantPAx 5.0 application
- Viewing and modifying trends in a PlantPAx 5.0 application

Objectives:

- Explain the HMI System Hierarchy Levels in a PlantPAx Application
- Interpreting Security for a PlantPAx Application
- Interpreting Process Objects and Faceplates in a PlantPAx Application
- Interpreting and Responding to Alarms in a PlantPAx Application
- Viewing and Modifying Trends in a PlantPAx Application

Who Should Attend:

Individuals who operate or maintain PlantPAx system applications, as well as those individuals who are interested in understanding how to operate a PlantPAx application.

Prerequisites:

Practical work experience with process applications, ControlLogix® systems, and FactoryTalk® View SE applications is beneficial but not required.
