

## TWO-WAY RADIOS

Is your company losing production due to poor or untimely communication?

Are you thinking about instituting an emergency management plan? What do you do to communicate during a power outage? These are just a few of the challenges every business has and must overcome to be competitive and successful in their market.

Two-way radios remain the ultimate necessity for businesses to connect teams with instant, clear, and reliable communication for safety, security, and operational efficiency.

SMC brings you the perfect solution using two-way radios to overcome your business challenges. First and foremost, SMC's solution guarantees 100% coverage throughout your facility or campus. Without 100% coverage, you run the risk of missed communication that can negatively affect your business.

## HOW CAN WE GUARANTEE 100% COVERAGE?

1. Upfront facility walk-through and testing to identify coverage issues
2. Detailed Solution Design using walk-through and testing data to identify equipment configuration and schematic requirements
3. Provide "Best in Class" products and accessories
4. Quality replacement and installation of equipment to meet Solution Design criteria
5. Procurement of FCC spectrum licensing to provide secure communications
6. Radio programming based on Solution Design and business criteria identified by the customer
