

**AUTOMATION**

## Sensors 1 & 2

This seminar is set up in an open-learning environment. Do you have a difficult sensor application that you need help with? Bring it with you and we'll work through the best solution to fit your needs.

### **LEVEL 1**

**Tuesday, July 22**

Attendees will learn the differences between inductive and capacitive proximity switches, as well as the basic sensing modes of photoelectrics.

### **LEVEL 2**

**Wednesday, July 23**

Covering the advanced usage of items such as lasers, ultrasonic analog, background/foreground suppression; each attendee will take that next step in knowledge application of proximity switches and photoelectrics.

**Tuesday, July 22 -  
Wednesday, July 23**

**8 AM - 4 PM**

**SMC Cape Girardeau  
2333 Rusmar St  
Cape Girardeau, MO**

### **Cost**

**1 Day: \$625**

**2 Day: \$950**

**Includes Lunch**
