

Lockout Tagout Safety Training

REVIEWING OSHA STANDARDS

This Lockout Tagout training course is a hands-on approach to understanding and complying with OSHA's regulations. The student will examine and understand OSHA Standard 1910.147 - The Control of Hazardous Energy. The student will also learn how to physically implement proper lockout tagout application of equipment. As part of the course, the student will be tasked with both a practical and written test to assess the students' progress throughout the course. We'll cover:

WE'LL COVER:

- Subject Matter (OSHA 1910.147)
- LOTO Incident Statistics
- Applicable Definitions
- Difference between 'Authorized' and 'Affected'
- Hazardous Energy Sources
- Energy Isolation and Control
- Following LOTO Procedures
- Scenarios and Hands-On Application

Tuesday, June 17
9 AM - 12 PM

SMC Joplin
923 W 4th St
Joplin, MO

Cost: \$300
