

SEMINAR AGENDA

CYBERSECURITY RISK AND MITIGATION

As cyber security incidents continue to increase, so do industry regulations that demand compliance. The pressure this puts on organizations is elevating security to unprecedented levels, and IT device count projections from Industry Analysts has added to the pressure.

Join SMC for this invaluable seminar as we hear from cybersecurity experts on how to prevent attacks, practice cyber hygiene, patch vulnerabilities, detect threats, and respond to breaches faster. SMC will help you identify how each element of cyber security plays into your organization's overall security posture.

GLOBAL CYBERCRIME COSTS ARE EXPECTED TO REACH \$10.5 TRILLION IN 2025.

AGENDA

- Welcome Presentation & Meet the Speakers
- Rockwell Automation:
 - Threat detection
 - The importance of a cybersecurity threat assessment
- CISA (Robert Graham):
