

Fall Protection

**SMC Electric is partnering with 3M DBI-Sala to sponsor Fall Protection Training at no cost.**

**3M Fall Protection Truck Demonstration :**

Attendees will learn the basics of fall protection including:

- Anchorage - how to tie off properly
- Latest OSHA and ANSI Standards
- Harnesses and how to wear them properly
- Drop demonstrations focusing on the impact the body experiences during a fall
- Self Retracting Lifelines
- Horizontal Lifelines
- Descent and Rescue

**Fall Protection Equipment Inspector:**

ANSI Standards require that fall protection equipment is inspected on an annual basis (semi-annual for construction) by a Competent Inspector. Attendees will be trained as an "Equipment Inspector" by 3M DBI-Sala. This course is required every 2 years (formerly called Competent Inspector Course).
